Budget Advisory Committee (BAC) & Charge

2016-17

Charge

The BAC is composed of representatives from faculty and staff. The BAC charge includes:

- Learn about budgeting issues at campus and statewide levels.
- Attend unit and campus-wide budget hearings to learn about budget requests.
- Participate in joint budget discussion with the CLC to develop recommendations for budget priorities.

Role in Budget Process

The BAC is encouraged to attend the unit hearings to learn more about campus budget issues.

The BAC does not advocate for individual budget requests. It does not have power to "approve" budget requests. The BAC attends hearings in order to learn about unit requests to enable a productive joint discussion with the CLC in developing recommended budget priorities.
